| 541.055(e)    | Methods for Submitting Consumer Requests           | A consumer may designate another person to serve as the consumer's authorized agent and act on the consumer's behalf to opt out of the processing of the consumer's personal data under Sections 541.051(b)(5)(A) and (B). A consumer may designate an authorized agent using a technology, including a link to an Internet website, an Internet browser setting or extension, or a global setting on an electronic device, that allows the consumer to indicate the consumer's intent to opt out of the processing. A controller shall comply with an opt-out request received from an authorized agent under this subsection if the controller is able to verify, with commercially reasonable effort, the identity of the consumer and the authorized agent's authority to act on the consumer's behalf. A controller is not required to comply with an opt-out request received from an authorized agent under this subsection if: | Functional     | Intersects With   | Authorized Agent                               | PRI-03.6 | Mechanisms exist to allow data subjects to authorize another person or entity (e.g., authorized agent, proxy, etc.), acting on the data subject's behalf, to make Personal Data (PD) processing decisions.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 5                        |                           |
